

**Equilibra la
producción / consumo**

**Elabora la programación
de los generadores**

An illustration of an electric control center. Three operators are seated at a desk with multiple computer monitors. In the background, a large wall display shows a complex network diagram of the power grid. A digital clock shows '17:23' and 'ENERO 2006'.

Centro de control eléctrico
(Operación en tiempo real)

**Autoriza los trabajos
en la red de transporte**

**Supervisa, gestiona y
controla la red de transporte**
